

Testimonial: David Mitchell IT

I have known David Mitchell for over 3 years. During that time David has impressed me with his outstanding personalised service. I have used David's services for all of my web site and computer problems from,

- designing my web site
- helping with email hosting
- helping with web hosting
- problem solving
- computer problems

No job is too big or too small. I have found David to be the utmost professional with his outstanding customer service. One example that comes to mind is a computer hitch that I had one morning, I phoned David and he just dropped what he was doing and came straight away.

I would not hesitate in recommending David for your computer Web Sites and computer problems.

Kind Regards

Michele Rattenbury
